The Assassin's Story

It was 30 years ago this month that an assassin fatally shot President John F. Kennedy. The person at the center of this controversy—Lee Harvey Oswald (left, as a child)—is the focus of *Frontline*'s "Who Was Lee Harvey Oswald?" The program specifically deals with Oswald's Soviet affiliations, including new documents released by the National Archives and interviews with former KGB officers.

"Who Was Lee Harvey Oswald," a special three-hour presentation, begins Tuesday the 16th at 8 p.m. ◆
